Summary

Analytics Engineer / Data Analyst with 1+ year of experience building data pipelines, analytics-ready datasets, dimensional models, and BI solutions across FMCG, e-commerce, marketplace, and healthcare domains. Strong hands-on expertise in **SQL, Python, ClickHouse, Power BI, and Microsoft Fabric**, with experience in ETL/ELT, data modeling, metric standardization, reconciliation, and data quality. Skilled at integrating multi-source business data and building trusted reporting layers for sales, advertising, inventory, profitability, and commercial performance.

Experience

FireAi **05 2026 – Present**
Data Analytics Engineer *Mumbai, Maharashtra*

- **FMCG Distributor & Sales Analytics Platform:** Engineered an analytics platform integrating sales, product, distributor, inventory, and regional data from **4 sources** (Zylem, Field Assist, Excel, APIs), including an Excel-ingestion workflow that standardizes uploads into master data.
- Designed datasets and reporting logic across **8 analysis areas** (Gross Sales, SKU/category, distributor, MoM trends, Sales Manager productivity, regional category, stock movement, trade performance) and built Weighted Outlet Count (WOD) reporting for Maharashtra.
- **E-Commerce Analytics Platform (Baby Care Brand):** Built an analytics workflow unifying **7 marketplace and quick-commerce platforms** (Flipkart, Myntra, Amazon, Instamart, Zepto, Blinkit, Meesho), replacing fragmented **manual reporting** with an automated ingestion-to-dashboard pipeline.
- Developed **ClickHouse SQL** transformation layers for **6 domains** (Sales, Advertising, Returns, Profitability, Sales Mapping, Overcharges) and standardized **12 business metrics** (Gross/Net Sales, Returns, Cancellations, RTO, RTV, CTR, CVR, ACOS, TACOS) across platforms.
- Performed **reconciliation and root-cause analysis** to resolve discrepancies between source systems, marketplace reports, and analytical outputs; refined metric definitions with business stakeholders.
- **Marketplace Sales & Advertising Analytics (Pharma/Healthcare Client) – Team Lead:** Led the model-development and dashboard team, gathering requirements directly from the client and delivering end-to-end **Power BI dashboards** backed by **15+ semantic models on Microsoft Fabric**.
- Consolidated sales, advertising, inventory, marketplace, quick-commerce, and pharmacy data into unified fact tables with master-data mappings, enabling consistent SKU-level, self-service reporting across platforms.

Mu Sigma Inc **07 2023 – 04 2024**
Data Analyst *Bengaluru, India*

- Automated **data quality checks** using Python and SQL, reducing manual validation effort and operational defects.
- Translated business needs into analytical workflows, improving turnaround time for stakeholder reporting.
- Developed Python validation scripts and test plans to verify accuracy, completeness, and consistency across enterprise data solutions.
- Investigated data and system issues through root-cause analysis, collaborating with cross-functional teams to support resolution.

Projects

PIH | *MS SQL, Power BI, PySpark, Azure DevOps, Power Automate* **2023-24**

- Built a centralized **Power BI** solution tracking project status, blockers, and team performance across **multiple vendors**; automated weekly insights delivery with **Power Automate**.
- Improved resource utilization by **33%** through workload and capacity optimization insights.

Technical Skills

SQL & Python: SQL (ClickHouse, PostgreSQL), Python, PySpark
Data Engineering / ETL: ETL/ELT Pipelines, Data Ingestion, API & Excel Integration, Automation, Flask
Data Modeling: Dimensional Modeling (Facts, Dimensions, Grains, Keys), Semantic Layer, Metric Definitions
BI & Analytics: Power BI, Dashboard Development, Self-Service BI, MS Excel (Advanced), EDA
Cloud & Lakehouse: Microsoft Fabric, Azure, Azure Databricks, Snowflake, Medallion Architecture concepts
Data Quality: Validation, Reconciliation, Profiling & Cleansing, Root-Cause Analysis, Documentation
Tools: Git, Power Automate

Education

Aditya College Of Engineering and Technology, Kakinada **2019 – 2023**
*B.Tech - Computer Science Engineering - **CGPA 7.1*** *Andhra Pradesh*

Certifications & Courses

Data Science Analytics Program – The Skillians Education Ltd., Gurgaon **2025-26**
Power BI for Data Analyst – Microsoft Press **2024**
